OFFICE OF PETITIONS

In re Application of	:	
Singh et al.	:	DECISION ON APPLICATION
Application No.: 10/688,797	:	UNDER 37 CFR 1.705(b)
Filed: 10/17/2003	:	
Attorney Docket No.	:	
016301-78410US	:	

This is a decision on the "PETITION UNDER 37 CFR § 1.705(b) APPLICATION FOR PATENT TERM ADJUSTMENT (PTA) UNDER 37 C.F.R. § 1.705" filed on April 30, 2008. Applicants request that the Patent Term Adjustment for the above-identified patent be increased from 269 days to 315 days.

The request for reconsideration of the patent term adjustment indicated in the patent is **DISMISSED**.

The Office has updated the PAIR screen to reflect that the correct Patent Term Adjustment (PTA) determination at the time of the mailing of the Notice of Allowance is ONE HUNDRED THIRTY-NINE (139) days. A copy of the updated PAIR screen, showing the correct determination, is enclosed.

On February 21, 2008, the Office mailed a Determination of Patent Term Adjustment under 35 U.S.C. 154(b) in the above-identified application. Applicant was advised that the patent term adjustment to date was 269 days. The period of adjustment was 350 days of PTO delay and 81 days of applicant delay.

The subject application for patent term adjustment was timely filed on April 30, 2008.¹

Applicants state that the subject application is not subject to a terminal disclaimer.

Applicants contend that the patent term adjustment should be increased to 315 days as a result of Office delay in issuance of a notice of allowance after the termination, on September 6, 2007, of the suspension of action under 37 CFR 1.103 requested on March 19, 2007.

On March 19, 2007, a request for continued examination (RCE) and a request for suspension of action under 37 CFR 1.103 were filed. On June 8, 2007, an Office communication granting the request for suspension of action was mailed stating that pursuant to applicant's request, action by the Office is suspended on the application for three (3) months under 37 CFR 1.103(a). On September 6, 2007, applicants filed a letter requesting termination of the suspension of action. On February 21, 2008, a notice of allowance was mailed.

37 CFR 1.703(a)(2) states that the period of adjustment under § 1.702(a) is the sum of the following periods: The number of days, if any, in the period beginning on the day after the date that is four months after the date a reply under § 1.111 was filed and ending on the date of mailing of either an action under 35 U.S.C. 132, or a notice of allowance under 35 U.S.C. 151, whichever occurs first.

37 CFR 1.704(c)(1) states that circumstances that constitute a failure of the applicant to engage in reasonable efforts to conclude processing or examination of an application also include the following circumstances, which will result in the following reduction of the period of adjustment set forth in § 1.703 to the extent that the periods are not overlapping:

¹ The issue fee was previously paid on August 2, 2006, in response to the Notice of Allowance mailed on June 27, 2006. A Request for Continued Examination (RCE) was filed on November 3, 2006, accompanied by a petition to withdraw the application from issue. A Notice of Allowance was again mailed on February 20, 2007, and an RCE was filed in response on March 19, 2007. The application for patent term adjustment was filed in response to a third Notice of Allowance mailed on February 21, 2008 and prior to the resubmission of the issue fee on July 31, 2008. Further, the applicant on application for patent term adjustment alleges Office delay in responding to their paper filed on September 6, 2007, and does not dispute any calculations prior to that time. Thus applicant timely argues that the Notice of Allowance mailed on February 21, 2008, and no prior Notice of Allowance, should include an additional adjustment for Office delay.

Suspension of action under § 1.103 at the applicant's request, in which case the period of adjustment set forth in § 1.703 shall be reduced by the number of days, if any, beginning on the date a request for suspension of action under § 1.103 was filed and ending on the date of the termination of the suspension;

MPEP 709 states, in pertinent part, that the request for termination of a suspension of action will be effective when an appropriate official of the Office takes action thereon. If the request for termination properly identifies the application and the period of suspension has not expired when the Office acts on the request, the Office will terminate the suspension and place the application on the examiner's docket.

On March 19, 2007, a request for suspension of action under 37 CFR 1.103(c) was filed. On June 8, 2007, the request for suspension of action was granted for a period of three (3) months. Thus, the period of reduction of patent term adjustment runs from March 19, 2007, the date the request for suspension of action was filed, to September 8, 2007, the date the suspension was terminated, or 174 days.² The patent term adjustment is thereby reduced by one hundred seventy-four (174) days pursuant to 37 CFR 1.704(c)(1).

On September 8, 2007, the suspension was terminated. On February 21, 2008, four (4) months and 44 days after the day after the date the suspension was terminated, a notice of allowance was mailed. Accordingly, the patent term adjustment is thereby increased by forty-four (44) days for Office delay in failure to mail an Office action or notice of allowance within four (4) months of the date of termination of the suspension.

In view thereof, the correct determination of patent term adjustment at the time of the mailing of the notice of allowance is ONE HUNDRED THIRTY-NINE (139) days (394 (350+44) days of PTO delay, reduced by 255 (81+174) days of Applicant delay).

The \$200.00 fee set forth in 37 CFR 1.18(e) has been received. This fee is required and will not be waived.

²As the Office did not act on the request for termination of suspension of action filed on September 6, 2007, the suspension is considered terminated as of three (3) months after the date of mailing of the letter mailed on June 8, 2007, granting the request for suspension of action for a period of three (3) months.

The Office of Data Management has been advised of this decision. The application is thereby forwarded to the Office of Data Management for issuance of the patent. The patent term adjustment indicated on the patent (as shown on the Issue Notification mailed about three weeks prior to patent issuance) will include any additional adjustment accrued both for Office delay in issuing the patent more than four months after payment of the issue fee and satisfaction of all outstanding requirements, and if applicable, for the Office taking in excess of three years to issue the patent (to the extent that the three-year period does not overlap with periods already accorded).

Telephone inquiries regarding this matter should be directed to Senior Petitions Attorney Douglas I. Wood at (571) 272-3231.
